For MSFS9 2004 users

All VRi's products access Microsoft's flight simulator (MSFS 2002 / 2004 / FSX), via Mr. Peter Dowson's FSUIPC add-on module. It's explained based on MSFS 2004 and FSUIPC for MSFS 2004.

You can use all VRi's products not only for MSFS 2004 but for payware aircrafts (Wilco, PMDG, Level-D and PSS) as well.

VRi does not offer an "FSUIPC" key. You can download it via <u>http://www.schiratti.com/dowson.html</u>. If you already download it, installing FSUIPC is \simply done by copying "FSUIPD.DLL" into "Modules" folder where MSFS 2004 is installed. You must download & install FSUIPC to work correctly with SerialFP. No registration is required. Further information, visit Peter Dowson's homepage at <u>http://www.schiratti.com/dowson.html</u>.

Confirm "FSUIPC.dll" is existed in \Program Files\Microsoft Games\Flight Simulator 9\Modules folder as like under

- (1) "Modules" folder where Microsoft's Flight simulator
- (2) Add-on module "FSUIPC.dll"

NOTE : MSFS 2004 users must download & install FSUIPC for MSFS 2004. FSUIPC4 which is for MSFSX may not compatible with MSFS 2004. Simply confirming "FSUIPC.dll" in "Modules" folder doesn't mean that you can use it.

Using basic functions of FSUIPC

Once "FSUIPC.dll" is installed correctly, additional menu item can be found when MSFS 2004 is started.

- (1) Find "FSUIPC" sub-menu item of "Modules" menu at menu bar.
- (2) As a window, "FSUIPC Options and Setting" is showed up, find "OK" button and click it.

REGISTRATION FSUIPC FOR All VRi's PRODUCTS IS NOT REQUIRED. Unregistered FSUIPC offers full functionality of all VRi's products.

For MSFSX users

All VRi's products access MicroSoft's flight simulator (MSFSX), via Mr. Peter Dowson's FSUIPC add-on module.

However VRi does not offer an "FSUIPC" key. You can download it via <u>http://www.schiratti.com/dowson.html</u>. After download "FSUIPC 4", run "install FSUIPC 4".

When FSUIPC 4 has installed, you will find a modules folder in your MSFSX installation, and additional documents will be found there.

Confirm "FSUIPC.dll" is existed in \Program Files\Microsoft Games\Microsoft Flight Simulator X\Modules folder.

IMPORTANAT : Even if FSUIPC 4 is properly installed and it says its okay, but you load MSFSX and still find no "Add-Ons" menu. In this case, it is simply a matter of telling the firewall or privacy program to trust MSFSX, to move it to the trusted and internet zones.

REGISTRATION FSUIPC FOR All VRI'S PRODUCTS IS NOT REQUIRED.

Unregistered FSUIPC offers full functionality of all VRi's products.
